

Summer Daze

Adventure Montessori Learning, Inc

April 2008

Dear Parents;

The time to start thinking summer thoughts is here. After our snowy winter, I'm sure we're all ready for that! We will enroll for the 10 week summer program on a first come basis. As indicated in the form below, you may choose to register your child on a monthly basis. All children participate in the summer activities. If your child is attending in the summer, he or she will also need to be enrolled in the Summer Daze program. Each of the classrooms will be staffed with Primary teachers from our current staff. Your Summer Daze activity fee is due at the time of enrollment and is non-refundable. **The registration deadline is Wednesday, April 30th, 2008.**

The goal of our "Summer Daze" program (2 ½ -6 year old) is to provide a relaxed, interesting and educational environment for our students. Each session has a special focus (different themes such as space, weather, dinosaurs, plants, and many art projects) within the regular Montessori classroom environment.

Children moving into our primary programs in the fall can get a head start in the environment by attending our "Summer Daze Program." These programs will allow the children to become oriented to the new curriculum and environment well before fall. We look forward to an exciting, fun filled and educational summer with the children.
